**FOR IMMEDIATE RELEASE**

**CSS Health Technologies to Exhibit at HIMSS12 in Las Vegas**  
*Company will reveal the “secret weapon” for rural and community hospital success.*

**Nashville, TN - February 2, 2012** - Focused on improving the delivery of healthcare with effective and efficient healthcare IT and management systems solutions, **CSS Health Technologies** travels to Las Vegas, NV for the upcoming 2012 Annual HIMSS Conference & Exhibition, Feb. 20-24, at the Venetian Sands Expo Center. Recognized as one of the premier conferences in the healthcare industry, HIMSS12 brings together healthcare professionals across the globe for this annual gathering.

The 25 year old, Nashville-based provider of IT Solutions for rural and community hospitals will exhibit for the first time in addition to ChartSmart EMR®, a newly designed web-based Financial & Patient Management System with a heavy focus on Business Intelligence capabilities. CSS recently went through a complete rebranding process to align the corporate image with the actual products that are released in the market place and the corporate culture that is the foundation of the company.

President & CEO Richie Wilkes said, “We are a forward thinking company looking outside the box for ways to help community hospitals succeed. The Business Intelligence module that we have integrated throughout our system is the secret to that success and we have planned to debut this technology at HIMSS12 in a major way.”

Customers who are not able to attend the conference will benefit as well. CSS staff is on an “intelligence gathering” mission throughout the event and will present a range of information

through various social media networks, including twitter, facebook, and YouTube, all of which can be accessed through [www.csshealthtech.com](http://www.csshealthtech.com). Wilkes added, “We are very proud of our new product line and what it can bring to communities. We want to show it to the world, as well as bring home the knowledge that we gain from attending to our clients, ensuring that they always enjoy world-class technology.”

In Las Vegas, the HIMSS annual conference is expected to attract about 30,000 attendees, ranking it as one of the largest healthcare IT and management systems conference in the world. Attendees who visit the conference participate in education sessions and networking events, in addition to visiting the exhibits. The 2012 conference includes more than 400 education sessions plus pre-conference education sessions with symposia on ICD-10, Accountable Care Organizations (ACOs), Achieving Meaningful Use for Eligible Hospitals, Clinical Engineering and IT Leadership, Health Information Exchange (HIE), Nursing Informatics, Physicians' IT, Quality/Clinical Decision Support, Meaningful Use Success, RFID & RTLS and the Secondary Use of Data Symposium.

The HIMSS12 Exhibition will feature the all-new Knowledge Centers, six powerhouses of education and vendor solution sessions that will focus on: accountable care organizations / value-based purchasing, mobile health, clinical and business analytics/intelligence, cloud computing and ICD-10. Once again, the Interoperability Showcase will highlight cutting-edge technology and standards demonstrating interoperability in a real-world environment. Other exhibition attractions include the well-attended pavilions like The Intelligent Hospital, E H R Association and Career Services Center.

Keynote speakers confirmed for HIMSS12 include:

- Biz Stone, Co-founder, Twitter: Hear how social media can influence the changing healthcare landscape.
- Farzad Mostashari, MD, ScM, National Coordinator for Health Information Technology: Gain top level insight about the latest on healthcare reform

- Donna Brazile  
Renowned Political Strategist and Commentator Vice Chair of Voter Registration and Participation, Democratic National Committee
- Dana Perino  
Political Commentator and Former White House Press Secretary
- Dan Buettner  
Founder of Blue Zones and World Renowned Explorer

### **About HIMSS**

HIMSS is a cause-based, not-for-profit organization exclusively focused on providing global leadership for the optimal use of information technology (IT) and management systems for the betterment of healthcare. Founded 50 years ago, HIMSS and its related organizations are headquartered in Chicago with additional offices in the United States, Europe and Asia. HIMSS represents more than 38,000 individual members, of which more than two thirds work in healthcare provider, governmental and not-for-profit organizations. HIMSS also includes over 540 corporate members and more than 120 not-for-profit organizations that share our mission of transforming healthcare through the effective use of information technology and management systems. HIMSS frames and leads healthcare practices and public policy through its content expertise, professional development, research initiatives, and media vehicles designed to promote information and management systems' contributions to improving the quality, safety, access, and cost-effectiveness of patient care. To learn more about HIMSS and to find out how to join us and our members in advancing our cause, please visit our website at [www.himss.org](http://www.himss.org).
